# BOSTON<sup>BR</sup>O -Timeline Style

## Pre-Booking Phase (Day 1-7)

Players can pre-book their Tambola tickets up to 7 days in advance. During this phase, they select the game slots and tickets they wish to purchase, securing their spot in the upcoming games. This early reservation ensures availability and allows players to plan their participation.

## Ticket Purchase and Wallet Allocation (Day 1-7)

Players are allowed to purchase tickets using up to 50% of their wallet balance. This limitation encourages responsible gaming while ensuring that players have sufficient funds for other investments. The wallet balance is updated in real-time, reflecting the purchased tickets and remaining balance.

## Waiting List and Cancellation Management (10 Minutes Before Game)

Ten minutes before the game starts, the final participant list is confirmed. Players on the waiting list are automatically added if spots open due to cancellations. This system ensures that all available tickets are utilized and gives last-minute participants a fair chance to join the game.

## Game Start and Number Calling (Game Time)

The Tambola game begins with the caller announcing numbers at regular intervals. Players mark their tickets as numbers are called, aiming to complete winning patterns like Full House, Lines, or Corners. The game is engaging and interactive, with participants closely monitoring their progress.

## Real-Time Updates and Player Interaction (During Game)

Throughout the game, players receive real-time updates on their ticket status, such as marked numbers and remaining numbers needed to win. The platform also allows for social interaction, where players can chat, share their excitement, and celebrate wins together, enhancing the community feel.

## Prize Distribution and Game End (After Game)

Once the game concludes, winners are announced, and prizes are distributed instantly to their BOSTON<sup>BR</sup>O accounts. The prize pool, determined by ticket sales, is divided among winners based on the game's predefined rules. This swift payout ensures that players can immediately enjoy their rewards.

## Post-Game Analysis and Daily Growth Integration (After Game)

After the game, players can review their performance, track their winnings, and see how their participation contributes to their overall financial growth. The 1% daily growth is calculated and added to their account, reflecting the combined benefits of playing Tambola and growing their financial portfolio.
